Step by step email software setup
Windows Mail

1. Open Windows Mail. Click Tools, then Accounts and Add. Select E-mail Account and click Next.

2. Enter your name and surname and click Next.
3. Enter the email address assigned to you by our Customer Service in the associated box and click **Next**.
4. Select **POP3** in the **Incoming e-mail server type** drop-down menu.

Enter **pop3.axion.ca** in the **Incoming mail (POP3 or IMAP) server** box.

Enter **smtp.axion.ca** in the **Outgoing e-mail server (SMTP) name** box. Click **Next**.
5. Enter the email username and password assigned to you by our Customer Service in the associated boxes. You may check the **Remember password** box if you wish. Click **Next**.
6. Click **Finish** to complete setup procedure.
